4. ELECTRONICS SELF EMPLOYMENT HISTORY

From 1996 onwards All work has been freelance contracts for the following companies:

INTEGRA NEUROSCIENCES LTD. (Formerly Spembly Medical): Newbury road, Andover, Hants, SP10 4DR.

Company business: Manufacture and sales of high-tech surgical equipment on an international basis. This included Ultrasonic, cryogenic and electro-surgical probes and control consoles. Also bedside monitors for measuring blood and intercranial pressure (ICP & AP)

Duties:

- Technical assistant in manufacturing department.
- In-house and field servicing/repair and testing of company products.

QUASSON: Quason House, Rennie Gate, West Portway Ind Est, Andover, Hants, SP10 3TU.

Company business: A division of Autocue Ltd. Manufacture of high quality electronic equipment for the broadcasting industry.

BROADCAST TECHNOLOGY LTD. Sopwith Park, Royce Close, West Portway Industrial Estate, Andover, Hants.

Company Business: Manufacture, design and sales of high quality broadcasting equipment for customers such as: BBC and NTL.

5. EMPLOYMENT HISTORY

December 92- May 96:

SPEMBLY MEDICAL LTD. Newbury rd, Andover, Hants, SP10 4DR.

Position: Quality and Test technician.

Duties:

- Testing of PCB's and finished products to required specifications.
- Carrying out electrical safety and high voltage flash testing of all equipment.
- Fault finding and repair of PCB's to component level.
- Control and maintenance of test records and route cards under a system so that subsequent research and traceability investigations could be easily carried out.
- Calibration of test equipment, soldering irons and anti-static devices.
- Control and update of company specifications required by ISO 9000.
- Goods inward inspection of piece parts in accordance with company drawings and specifications.

Reason for leaving: Redundancy due to company cut backs.

EMPLOYMENT HISTORY CONTINUED.

February 89- September 92:

RADAMEC ELECTRONICS LTD. Hopkinson way, West Portway Industrial Estate, Andover, Hants.

Position: Test and Support technician.

Company business: Manufacture, under sub-contract, of the Psion range of hand held computers. The company also manufactured its own alarm system.

Duties:

- ATE and functional testing of all company products at various stages of build.
- Fault diagnosis and repair of products.
- Maintenance of test equipment.
- Providing technical support to production lines.
- Overseeing the set-up of new products and liaising with the customer to deal with any technical problems that arose.
- Compiling fault diagnosis reports to help others deal with the more common faults that occurred with the products.

Reason for leaving: Redundancy due to factory closure. This redundancy was also the reason I never went on to the second year of my HNC. My next employer would not allow day release.

November 88-February 89:

C & S ELECTRONICS. East Portway Industrial Estate, Andover, Hants.

Position: Wireman.

Company business: Manufacture and installation of studio and sound equipment.

Duties: Assembly and wiring of PCB's, wiring looms and control panels.

Reason for leaving: I was offered the Position at Radamec Electronics and it included sponsorship for me to attend my BTEC courses.

July 86-November 88:

MDH LTD. Walworth road, Walworth Industrial Estate, Andover, Hants.

Position: Wireman.

Company business: Manufacture of medical and sterilising machinery.

Duties: I started working for this company on a government-training scheme and after 7 months they employed me on a full-time basis. During this time I was responsible for the wiring and assembly of control panels and boxes for the various machines they were used on, and then to fit and wire them to their relevant machines. I learnt how to read and decipher wiring and circuit diagrams and work from these. My duties covered a whole range of wiring procedures, from heavy-duty three-phase or single-phase wiring, to wiring of PLC's and low power control panels.

Reason for leaving: To obtain experience in a different area.
